

How can you manage your on-call teams and individuals during planned or unplanned events?

SmartOnCall lets you see who's on call and speak with them instantly

SmartOnCall is an essential tool for round-the-clock operational teams using on-call personnel.

It is easy for on-call personnel to register with SmartOnCall and even easier to contact them individually, or to bring all of them together in a conference instantly.

All calls can be recorded for enhanced auditability and accountability, adding further benefit to your BCM toolkit.

In addition to incident management and recovery, SmartOnCall is ideal for any distributed management teams such as security, transport and maintenance crews, safety inspection and change control teams, amongst others.

Call us on **020 3190 3190** to find out more, or to arrange a demonstration.
